## WARM WELCOME FOR ROOSEVELT

Italians Greet Him Enthusiastically at Naples.

SAID IT WAS MAGNIFICENT

Former President of the United States Pleased With the Gala Scene in the Harbor When His Vessel Arrived—German Emperor Sent Greetings and an Invitation for Roosevelt to Visit Berlin.

Naples, April 6.—Ex-President Roosevelt spent several hours in Naples and in that time was given many evidences of his personal popularity with the Italian people and of the admiration which they have for his distinguished services to this country. The steamer Hamburg, on which Mr. Roosevelt was a passenger, was greeted on her way to the anchorage with the blowing of whistles, the fluttering of many flags and the playing of bands. Italian warships in the harbor, steamers of various nationalities, private yachts and craft of all kinds dressed in bunting and signal flags from stem to stern, added to the picturesqueness of the scene which Mr. Roosevelt himself characterized as magnificent.

Great crowds, too, waited for his appearance on the streets and when he rode in an automobile he was greeted with enthusiasm that astonished him. He met various official delegations at the Hotel Excelsior, where apartments had been reserved for him, scores of prominent Americans and representatives of other countries, and to them all he expressed his warmest thanks for the welcome he had received.

Sails for Mombasa.

He visited the Duke and Duchess of Aosta at Capodimonte, and later dined in private at the hotel, after which he went on board the steamer Admiral. The Admiral, which will convey Mr. Roosevelt to Mombasa, sailed at midnight. The ex-president's quarters aboard were filled with flowers. Chief among these were bunches of red, white and black carnations from the German emperor, and a great cluster of fragrant blossoms from the empress.

Emperor William, indeed, showed great interest in the former president. The German consul general, in the name of the emperor, carried to Mr. Roosevelt the warmest greetings, and a letter in which the emperor expressed the hope that he would see Mr. Roosevelt in Berlin on his return. In reply to this Mr. Roosevelt told the consul general to inform the emperor that he would certainly go to the German capital, and would tell his majesty "how the white man can live and fight in Africa."

Three hours elapsed between the arrival of the Hamburg and the landing of the ex-president, as Mr. Roosevelt wished personally to superintend the handling of the baggage, of which he had a large quantity. Meanwhile he was the object of a continual ovation from Italian emigrants, who broke out into cheers every time they caught a glimpse of him, from the moment the Hamburg dropped anchor.

Senate Session Brief.

Washington, April 6.—Many bills and resolutions were introduced in the senate, but there was no debate. After a short executive session the senate adjourned until Thursday.

London to Abandon Trip.

Honolulu, April 6.—It is reported here that Jack London, the novelist, will sell his sloop, the Snark, with which he planned to circumnavigate the globe, at Sydney and return to San Francisco June 6.

## MAIL COURSE IN FARMING

Provided for in a Bill Passed by the Senate.

TEN THOUSAND FOR PRIZES

And Twenty Thousand Dollars Appropriated for Bulletin Service and Traveling Lecturers—House Would Abolish the Old System of Buying Books for Public Schools—Big Stone Lake Dyke Bill Passed.

St. Paul, April 6.—The passage of the bill by J. M. Hackney of St. Paul permitting the establishment of a correspondence course in farming in connection with the state university starts the state toward the head of the procession of states which are taking education to the homes of the people.

The bill was amended on general orders by cutting the appropriation from \$75,000 to \$50,000 and before passage it was further reduced to \$30,000. One-third of this amount is to be distributed as prizes among the farmers for the best crops. The rest will start a bulletin service and a course of lectures in the country among the farmers upon topics closely related to their work.

Many of the country members were opposed to it, there being a minority report when the bill came from the senate finance committee.

After a speech by F. B. Wright of Minneapolis, in which he called former Commissioner C. C. Andrews a pensioner who had never put out a fire and never will, the house killed the bill increasing the salary of the forestry commission from \$1,500 to \$2,000.

C. E. Stone, the author, and several others said that a position with the responsibility of preserving hundreds of millions of dollars' worth of timber, should surely be worth \$2,000 a year, but the house could not see it that way.

Bill Will Die in Committee.

The senate committee on public health decided that it would be a waste of time to consider the Armour plant bill in the senate, and it will be permitted to die peacefully in committee. This bill gave jurisdiction over packing plants between two and five miles from a state building, to the state board of health. The bill was killed in the house, and there is little hope of a senate bill on the same subject receiving favorable consideration.

The house killed the bill introduced by C. J. Wohlhuter of Albert Lea requiring the annual publication of the assessed valuation of each description of real property in each county. The editors of the state were behind the bill, and J. C. Morrison of the Morris Tribune and others appeared before the house tax committee last week in favor of the bill, but the committee thought that it would cost the state about \$100,000 a year for this work, without being of any benefit to any one except the editors.

In spite of some opposition during the debate, the house passed E. A. King's bill requiring abutting owners to pay half each of the cost of partition fences when either of the property owners think that fence is necessary.

The Gates bill, authorizing counties to erect their own tuberculosis sanatoria, passed the house.

Farmers to Get Pay for Healthy Cows.

The senate passed the Wright-Swanson bill increasing the amount farmers will get for condemned tubercular cattle. At present if a cow is killed as the result of a tuberculin test and found to be free from the disease and farmer recovers nothing.

The law is to be changed so that on an appeal for a post-mortem examination the animal is found healthy the owner will be entitled to full compensation.

The house passed the bill introduced by Representative R. J. Wells and others, doing away with the present contract system of buying books for the school libraries of the state. The bill allows school boards to buy their library books wherever they please, and if they certify to the state superintendent that they have expended \$20 or more in the purchase of books the state will refund \$10.

Hitherto the state has made a contract with a St. Paul firm to furnish books at a certain price, and the school got the state aid only when they bought books from the list furnished by the state.

The senate took the first step toward protecting the Minnesota valley from floods by passing the bill introduced by R. G. Farrington of Ortonville and C. A. Johnson of St. Peter for the dyking of the Big Lake. This will cost \$25,000,

## JURY CHOSEN TO TRY MRS. SAMPSON

Defendant Pleased With the Jurymen Selected.

Lyons, N. Y., April 6.—The work of selecting the jury in the case of Mrs. Georgia Allyn Sampson, charged with the killing last November of her husband, was completed when court adjourned after an entire session devoted exclusively to the examination of talesmen. The presentation of the state's case will next be made, after which the taking of testimony will be begun.

Justice Rich informed council that he wanted the case to move expeditiously and a jury quickly selected. Sixty-six talesmen were under a fire of questions before the final juror was selected.

The young defendant expressed herself as pleased with the jury and declared her belief that she would be freed. Throughout the proceedings she sat dressed in full mourning, displaying no apparent interest in the case. Her father, Frank Allyn, was with her, while on her left sat her constant companion, Miss Theresa Collins, daughter of Sheriff Collins. Mrs. Allyn, mother of the defendant, is ill, but will be able to appear as a witness.

HAS NOT LEFT THE COUNTRY

John Dickinson, However, Is in Poor Physical Condition.

Chicago, April 6.—John Dickinson, who traded on the Consolidated Stock Exchange of New York and the Chicago Board of Trade as John Dickinson & Co., and whose company was placed in the hands of a receiver here, is said by his attorney, George W. Plummer, to have collapsed physically last Saturday. "Mr. Dickinson has not left the country," said Mr. Plummer. "His physician and counsel advised him to seek complete rest for as long a time as possible, and he followed that advice. He will be in Chicago as soon as needed, probably within a few days."

KILLED BY HIS SISTER-IN-LAW

Virginia Man Shot Dead During a Quarrel.

Roanoke, Va., April 6.—A special from Buena Vista, Va., says Henry W. Amos of that place was shot and killed by his sister-in-law, Mrs. William Campbell. Amos' wife recently left him and went to the Campbell home to live with her sister. Amos called and sought a reconciliation with his wife. The latter refused to go with him and a quarrel followed. Mrs. Campbell fired several shots at Amos, none of them taking effect. She then seized a shotgun, it is said, and discharged it at Amos at close range, killing him. Amos was not armed.

Italians in Fatal Fight. Brockwayville, Pa., April 6.—Jim Patsle was killed and four men and a woman were injured at West Clarion, a small town in this county, in a battle between Italians.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better in reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription directed to the cause would have cured the disease, there by dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus' dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

An assessment of 100 cents on the dollar of the bank stock was paid in full, largely by George Storck, of Earlham, Iowa, father of E. A. Storck, cashier of the bank. The stockholders met Monday afternoon and elected George Storck, of Earlham, Iowa, E. A. Storck, of Brainerd and H. J. Hage, Deerwood, as directors. The directors immediately met and elected the following officers.

Pres.—George Storck.  
V. P.—H. J. Hage, Deerwood.  
Cashier—E. A. Storck.

The bank opened up for business this morning as usual and there was no sign of anxiety on the part of depositors to withdraw their deposits. The majority of the stock is now owned by Messrs. George and E. A. Storck. When the bank closed Mr. Storck, Sr., stated that he would see that no one lost a dollar through the bank and he has eminently made good. He is a well to do Iowa farmer and will only give an oversight to the business, the active management being in the hands of the vice president and cashier.

The advent of H. J. Hage, of Deerwood, as vice president, will add materially to the confidence which the public will have in the bank. Mr. Hage is one of Crow Wing county's best known business men and financiers. Has had experience in the banking business and holds the confidence of the people of the county.

Messrs. Storck and Guerin have carried themselves during the trying times they have passed through in connection with the bank troubles in a manner which has won them the sympathy and admiration of all and all will rejoice with them that the bank is again on its feet.

D. D. Divine, bank examiner, states that the assessment more than covered the impairment of capital and that the bank is now in excellent condition.

## SECURITY STATE BANK REORGANIZED

### Stockholders Held Meeting Yesterday and Elected George Storck President

### E. A. STORCK IS CASHIER

### H. J. Hage, Popular Deerwood Business Man and Banker Becomes Vice President

The Security State Bank, which was closed about 60 days ago because of losses through Andrew Jones, the notorious Dakota swindler re-opened for business. An assessment of 100 cents on the dollar of the bank stock was paid in full, largely by George Storck, of Earlham, Iowa, father of E. A. Storck, cashier of the bank. The stockholders met Monday afternoon and elected George Storck, of Earlham, Iowa, E. A. Storck, of Brainerd and H. J. Hage, Deerwood, as directors. The directors immediately met and elected the following officers.

Pres.—George Storck.  
V. P.—H. J. Hage, Deerwood.  
Cashier—E. A. Storck.

The bank opened up for business this morning as usual and there was no sign of anxiety on the part of depositors to withdraw their deposits. The majority of the stock is now owned by Messrs. George and E. A. Storck. When the bank closed Mr. Storck, Sr., stated that he would see that no one lost a dollar through the bank and he has eminently made good. He is a well to do Iowa farmer and will only give an oversight to the business, the active management being in the hands of the vice president and cashier.

The advent of H. J. Hage, of Deerwood, as vice president, will add materially to the confidence which the public will have in the bank. Mr. Hage is one of Crow Wing county's best known business men and financiers. Has had experience in the banking business and holds the confidence of the people of the county.

Messrs. Storck and Guerin have carried themselves during the trying times they have passed through in connection with the bank troubles in a manner which has won them the sympathy and admiration of all and all will rejoice with them that the bank is again on its feet.

D. D. Divine, bank examiner, states that the assessment more than covered the impairment of capital and that the bank is now in excellent condition.

Pains of women, head pains, or any pain, stopped in 20 minutes sure, with Dr. Shoop's Pink Pain Tablets. See full formula on 25c box. Sold by H. P. Dunn. t t f

Gain in amount collected for current	\$515 98	
Gain in amount paid for labor	302 78	

Total gain for 4 months \$818 76

In a conversation with a Dispatch representative Mr. Wright stated that a portion of the increase in current rentals arose from the fact that the plant had been put into better shape and the voltage brought up to the standard which resulted in increased light and correspondingly increased rentals. It was also in part due to the action of the board in enforcing the payment of delinquent rentals by discontinuation of service unless bills were paid.

### PRESIDENT QUOTED AS LEGAL AUTHORITY

Unique Occurrence in Standard Oil Case Hearing.

St. Louis, April 6.—For the first time in the courts of this country a president of the United States was quoted as a prevailing legal authority in the case of Special United States Attorney General Frank B. Kellogg's argument in the United States circuit court in the government's case to dissolve the Standard Oil Company of New Jersey because of alleged violations of the Sherman act. Mr. Kellogg read at length from a decision rendered by President Taft in the Chase-Addyston pipe case when he was a judge in Cincinnati.

The issue in the case involved was an alleged restraint of trade.

The federal lawyer hurried through his argument in a rapid manner, promising soon to conclude his opening remarks, leaving his associate, C. B. Morrison, to finish with an argument covering the alleged unfair competition of the defendants. As one of the four judges of the court is to leave St. Louis Saturday, Mr. Kellogg will insist upon the defense completing its argument by Friday night. This would leave John G. Milburn of New York, Moritz Rosenthal of Chicago, John G. Johnson of Philadelphia and David G. Watson of Pittsburgh only two and a half hours each for their defense, with Friday for the Standard's concluding argument, and Saturday for Mr. Kellogg's. This, the defense will bitterly oppose. In all likelihood the arguments will run well into next week, as fully five days will be required by the defendant's lawyers in stating their defense.

#### HASKELL MAKES HARD FIGHT

Governor of Oklahoma Tries to Prevent Case Coming to Trial.

Tulsa, Okla., April 6.—Governor Charles N. Haskell, when called before the federal court to answer to indictments charging him with fraud in connection with Muskogee town lot cases, made a hard fight against the case coming to trial.

Judge Marshall of Utah, who is presiding, heard extended arguments by both sides in the matter of Haskell's demurrer and likely will render a decision today.

Governor Haskell's attorneys began their fight by asking that the indictments be quashed, charging Special Attorney General Rush with misconduct in conducting the grand jury inquiry which resulted in the indictments. It also was charged that the grand jury had been illegally drawn, that a stenographer had been present at the inquiry, and that incompetent testimony had been the basis of the indictments.

These allegations were vigorously denied by the government counsel. A great crowd attended the opening of the trial. People came from all parts of the state to see the unusual spectacle of a governor on trial for alleged fraud.

A Prominent Fireman of Malden, Mass., writes:

Mar. 28th, 1909.  
Last winter I had a severe cold and it settled on my kidneys, causing the most excruciating pain almost every time I attempted to move. "Bloodine" is a wonderful, vitalizing tonic. If the blood is impure, complexion bad, appetite lost, strength gone, and the whole system is upset by an accumulation of humors, it is time to try "Bloodine" today.

#### LIKE FINDING MONEY

H. P. Dunn, the popular druggist, is making an offer that is just like finding money for he is selling regular 50-cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half-price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is only recently, through the solicitation of Druggist H. P. Dunn that this medicine could be bought for less than fifty cents, he urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. This result has justified his good judgment for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these diseases. But if by any chance it should not, H. P. Dunn will return your money.

#### FIRST CLASH AT BUFFALO

Union Men Take Nonunion Men Off a Freighter.

Buffalo, N. Y., April 6.—The first clash between union and nonunion forces on the water front occurred when an attempt was made to move a big freighter from her winter berth in the Blackwell canal with nonunion engineers. When it became known that the boat was to be moved and that nonunion engineers were at work, a score of men rushed on board. When the police arrived the crowd had disappeared, the nonunion engineers with them.

While no formal order has been issued by President Edward Stack for a sympathetic strike by the Firemen, Oilers and Water Tenders' association, there is doubt as to their position.

"None of our men will go to work under engineers who have signed contracts with the Lake Carriers' association," declared an official of the union.

### PRESIDENT QUOTED AS LEGAL AUTHORITY

#### Unique Occurrence in Standard Oil Case Hearing.

St. Louis, April 6.—For the first time in the courts of this country a president of the United States was quoted as a prevailing legal authority in the close of Special United States Attorney General Frank B. Kellogg's argument in the United States circuit court in the government's case to dissolve the Standard Oil Company of New Jersey because of alleged violations of the Sherman act. Mr. Kellogg read at length from a decision rendered by President Taft in the Chase-Addyston pipe case when he was a judge in Cincinnati.

The issue in the case involved was an alleged restraint of trade.

The federal lawyer hurried through his argument in a rapid manner, promising soon to conclude his opening remarks, leaving his associate, C. B. Morrison, to finish with an argument covering the alleged unfair competition of the defendants. As one of the four judges of the court is to leave St. Louis Saturday, Mr. Kellogg will insist upon the defense completing its argument by Friday night. This would leave John G. Milburn of New York, Moritz Rosenthal of Chicago, John G. Johnson of Philadelphia and David G. Watson of Pittsburgh only two and a half hours each for their defense, with Friday for the Standard's concluding argument, and Saturday for Mr. Kellogg's. This, the defense will bitterly oppose. In all likelihood the arguments will run well into next week, as fully five days will be required by the defendant's lawyers in stating their defense.

#### Swept Over Niagara.

This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape fatal maladies—Dropsy, diabetes or Bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at H. P. Dunn. t t s

#### HASKELL MAKES HARD FIGHT

Governor of Oklahoma Tries to Prevent Case Coming to Trial.

Tulsa, Okla., April 6.—Governor Charles N. Haskell, when called before the federal court to answer to indictments charging him with fraud in connection with Muskogee town lot cases, made a hard fight against the case coming to trial.

Judge Marshall of Utah, who is presiding, heard extended arguments by both sides in the matter of Haskell's demurrer and likely will render a decision today.

Governor Haskell's attorneys began their fight by asking that the indictments be quashed, charging Special Attorney General Rush with misconduct in conducting the grand jury inquiry which resulted in the indictments. It also was charged that the grand jury had been illegally drawn, that a stenographer had been present at the inquiry, and that incompetent testimony had been the basis of the indictments.

These allegations were vigorously denied by the government counsel.

A great crowd attended the opening of the trial. People came from all parts of the state to see the unusual spectacle of a governor on trial for alleged fraud.

I would not take all the money in the world for what it did for my boy." Infalible for coughs and colds, its safest, surest cure of desperate lung diseases on earth. 50c. and \$1.00.
